Trustee Frank Sirna
16354 Moseley Rd
Thompson, OH 44086-9703

Dear Trustee Sirna,

Thank you for organizing the special meeting of Thompson, Montville and Huntsburg trustees and citizens, to discuss the Geauga County -138kV Transmission Line Supply Project. The meeting was productive, organized and informative. I was particularly impressed with the number of county commissioners in attendance, as well as with the presence of our State Senator Tim Genedell.

I appreciated the opportunity to present some of my concerns and ideas to the group. It was obvious to me that everyone is taking this matter very seriously, as they should. The stakes are high when considering the adverse impact that the Geauga County -138kV Transmission Line Supply Project would have on our homes, farms, families and lifestyles.

It's not possible to over-stress the importance of making our voices heard to FirstEnergy right now, before FirstEnergy makes application to the Ohio Power Siting Board for their project to be considered. We have a window of opportunity to influence the project before any project details are made part of the official OPSB record. Once this window of opportunity closes, it will become more difficult to influence the project because FirstEnergy will then need to modify their submitted application to alter the project plans.

Now is the time to make our voices heard!

Please find enclosed three extra copies of the FirstEnergy contact information sheet that I had available at the meeting. Please make this information available to everyone and anyone.

Once again, thank you for your help and helping to make my voice heard.

Best Regards,

Jim Galm
